**Notes:**

3/10/2015 at 17:34, on location. Wheat stubble field to north of wellpad has been tilled the entire north side of the wellpad to ~75 feet into the field. No visible staining on stubble outside of tilled area or in standing meltwater in field. Some piles of scoria and sand on wellpad, but there is no visible staining within piles. Phone call with report contact; they will be sampling the field to check within tilled area. Contact has left messages for the landowner but has had no response.
